Modulbaserte plantekasser

Polys modulbaserte plantekasser for gaterom, parker, kjøpesentre, skoler og tilsvarende ute- og inneområder som trenger fargerike innslag og noe som kan dele rommet til mindre rom.

Materialene er holdbare og vedlikeholdsvennlige; aluminium og galvanisert, pulverlakkert stål. Indre plantebeholder er isolerende, og beskytter røttene noe mot kulden samt mot varmen i solsteiken om sommeren. Beholderen kan leveres med eller uten vanningsystem.
